CC#7

Circular Letter No. 112.

May 12, 1910.

To Supervising Principals:--

You will please send in at once the names of the Spanish Graded teachers in your district whom you recommend for the examination for English Graded License. In this list include only those who, by their profeciency in English and their general excellence as teachers, are in your judgment entitled to this examination at this time. The fact that English Graded teachers are to receive extra compensation this next year makes it desirable that the English Graded License should be granted only to the best of the Graded teachers.

We would suggest that you urge upon those who are anxious to take the examination, but who are not in your judgment qualified for it, that they arrange to attend the summer session of the Normal or the Institute at Mayaguez; in both of which places practice classes will be maintained and an examination for English Graded teachers conducted at the end of the session.

In case it is impossible for a General Superintendent to examine the candidates in your district, you may advise them that those recommended for the examination will be allowed such examination during the first week of the Institute at Río Piedras and Mayaguez.

Very truly yours,

EDWING G. DEXTER
Commissioner of Education
